## Comments for further development and grievances

21 responses

Good

all teacher and mam is great support for every student

Smart classes must be arranged

Thank you

Over-all good

Further development and grievances is good

Every thing good

Ok

Thankyou

Best experience all professor's and staf good and helping Nature and always supports students especially Rajdeep Chatterjee sir Faisal sir,Goutam sir thank you so much.

Office Lab facilities can be improved

Faculty needs to be improved and well trained. Much of training is required for BCA course.

No comments

We have got every facilities what we need, from the college. Just one thing I would like to request the college authority that it will be very helpfull if students get facilities of preparation for all India Masters

degree entrance tests like CUCET, JAM, JEST etc. Otherwise our campus life in the college was fantastic.

Nothing to say on regards of this college

All ok

I had not seen any core theoretical faculties or phenomenologist worked in high energy physics (like particle physicist or string phenomenologist etc) or condensed matter physics. All had either Nanotechnology, material science, or electronics background. According to me this is the only reason why student from state university are very less in numbers working in fundamental physics compared to institutions, IISER, IIT, NIT etc. In addition, a student should get the opportunity to learn all those laboratory instruments and experiments mentioned in syllabus.

Collaboration and teamwork

Good teaching faculties

Nice
