## Comments for further development in curriculum, infrastructure and grievances

46 responses

Good

Good

Increase the Urdu books in library

College might consider organizing conferences or events for alumni

I suggest to include more use cases related to statistical concepts as it's widely used in Data analysis and also many algorithms in economics & statistics.

Canteen must be in proper way

More professional courses needed

Not necessary

Encourage and guide students for Competitive exam .

Need to focus on T&D

One of the best institute for general degree. Each and every teachers are helpful but some non teaching staff behave very bad. There are no hostel during our student period... All over rating is very good... specially Math department teachers are just amazing, excellent...very helpful...HOD Sir is just . In one word, our college is city of knowledge...♥

Thank you.

.

There should be regular smart class in every department so as for better understanding of students.

No

Everything is excellent, I am from physics department and I have not a single word to explain about the department. All the teachers, lab assistants are very very helpful. They helped me a lot. Thank you.

Please try to give education of poor student like me free of cost.

Be improving and do your duties and responsibilities with imaan

Needs for improvement in every section

Please start optional papers on various cloud, backend, frontend technology for pass and honours students. It will really help them initially when they will apply for IT Industry.

College must encourage students for hands on internship in research and development .

No comment

Develop the hostel facilities, canteen,sports

All good

If there will be some type of guidance for post graduate entrance examinations like JAM, JEST, CUCET etc. then it will be very helpfull for the students.

Yes

Nothing every thing is perfect

Really amazing experience.

M.A

Our College is king

Really Great Experience

Behaviour and discipline

All good no comments

Nothing any problem

Don't need a upgrade. Our Professor's are best

NA

Yyy

Hostel and Canteen.....

The college, infrastructure, lab , classes all are good but I think few of the faculty members needs to be trained well for their subjects according to me and the classes should be regular as we are spending so much of money and we are not getting that response from the college. The ultimate goal is to educate and build the career of the present youth according to modern technologies and this is only possible if we together students as well as teachers team up and do collective work for that. Thank you.

I'm generally satisfied with my college, but it could benefit from being slightly stricter. More discipline would create a focused and accountable environment, improving academic performance and rule adherence. This feedback aims to enhance the learning experience and prepare students for the future. Appreciate the college's efforts and hope they consider it.

Nothing

The college campus is excellent. The professors and staff are very supportive and have a good behavior. The class environment is also very good. The teaching styles of Vibe, Rajdeep sir, Faizal sir, Gautam sir, and Santana sir are all very good. Thank you, sir, for everything. BC College is great.

Do

We hardly had any classes during our 3 years tenure. The teachers were good. At least a few of them were. The curriculum wasn't necessarily bad either. However, the principal was a moron and still is I suppose. He is only in power because of his close proximity with the ruling party. The infrastructure is downright terrible. In three years of my life at Bidhan Chandra College, not a single sports event took place. My grievances are endless but does it even matter now?
