

NOTICE

A meeting will be held in the department on 02/12/2023 at 12 Noon regarding the internal exams of 5th semester.

Date - 29/11/2023.

Head of Department.

Members present -

1. *Ans*
2. *P in*
3. *Gay*
4.
5. *Sharma*
6.

Resolution: -

After detailed discussion of the matter, it is finally resolved that the internal examination of 5th semester (Honours/Program) will be held as per following schedule -

Honours - 14/12/2023.

11 - 11:30 AM - Quantum mechanics.

11:30 - 12 Noon - Thermal Physics - II

12 - 12:30 PM - Nuclear and Particle Physics.

12:30 - 1 PM - Atomic physics and Spectroscopy.

Program - 14/12/2023.

11 - 11:30 AM - Modern Physics.

Analog Systems and Applications

Internal Examination (2023-2024)

* Indicates required question

1. Email *

Department of Physics, B.C. College, Asansol

2. Name- *

3. Mobile No.- *

4. Registration No.- *

INTERNAL EXAMINATION

Choose the correct option

5. 1. Depletion region is formed in a p-n junction due to

Mark only one oval.

- ionization
- diffusion
- recombination
- all the above

6. 2. For a transistor if alpha (α) is 0.99 then beta equals to

Mark only one oval.

- 9.9
- 199
- 99
- 19.9

7. 3. The point of intersection of DC and AC load lines represents

Mark only one oval.

- current point
- operating point
- voltage point
- none of the above

8. 4. An ideal OP-AMP has

Mark only one oval.

- unity open loop gain
- zero input impedance
- infinite output impedance
- infinite bandwidth

9. 5. Unity gain amplifier is a

Mark only one oval.

- difference amplifier
- comparator
- single ended
- voltage follower

10. 6. Semiconductor suitable for light emitting diode is

Mark only one oval.

- Si
- Ge
- GaAs
- C

11. 7. JFET is also called.....transistor

Mark only one oval.

- unipolar
- bipolar
- unijunction
- none of the above

12. 8. CMRR parameter in an OP-AMP stands for

Mark only one oval.

- common medium rejection ration
- common mode rejection ration
- common mode ratio of reference
- none of the above

13. 9. Negative feedback

Mark only one oval.

- decreases gain
- makes the gain unstable
- increase distortion
- decrease bandwidth

14. 10. Why is there a sudden increase in current in Zener diode?

Mark only one oval.

- due to the rapture of ionic band
- due to the rapture of covalent bond
- due to viscosity
- due to potential difference

15. 11. A rectifier converts

Mark only one oval.

- mechanical energy into electrical energy
- light energy into electrical energy
- AC to DC
- DC to AC

16. 12. When a p-n junction is reverse biased, then

Mark only one oval.

- no current flows
- the depletion layer is increased
- the depletion layer is decreased
- height of potential barriers is reduced

17. 13. A transistor is used is

Mark only one oval.

- a rectifier
- an amplifier
- an oscillation
- a source of electrons and holes

18. 14. In some substances, charge can flow at ordinary temperature, but not at very low temperatures. These are called

Mark only one oval.

- conductors
- insulators
- semiconductors
- dielectrics

19. 15. A common-emitter amplifier has a voltage gain of 50, an input impedance of 100 ohm and output impedance 200 ohm. The power gain of the amplifier is

Mark only one oval.

- 500
- 1000
- 1250
- 50

DEPARTMENT OF CHEMISTRY

Ref. No. 10/04/24

Date: 24-05-2024

Notice:

Subject: Schedule of Internal Assessment Examination of 6th Semester B.Sc. (Hons) and B.Sc. (Program) in Chemistry 2024

It is here by informed that the Internal Assessment Examination 2024 in Chemistry of 6th Semester B.Sc(Hons) and B.Sc (Program) will be held on the following dates given below.

Semester	Date of Exam	Time	Subject	Full Marks	Teacher
Semester-VI B.Sc. (Hons)	30.05.2024 Thursday	11.00AM	Inorganic Chemistry (Theory) BSCHCEMC601	10	TKS
		1.00PM	Inorganic Chemistry Lab (Practical)	30	SKB
	31.05.2024 Friday	11.00AM	Dynamic Stereochemistry (Theory) BSCHCEMDSE601	10	MSA
		1.00PM	Chemistry of Nanomaterials (Theory) BSCHCEMDSE603	10	TKS
	03.06.2024 Monday	11.00AM	Physical Chemistry (Theory) BSCHCEMC603	10	SS
		1.00PM	Physical Chemistry Lab BSCHCEMC604	30	SS
Semester-VI B.Sc. (Program)	30.05.2024 Thursday	11.00AM	Advanced Inorganic Chemistry (Theory)	10	TKS
		1.00PM	Fuel Chemistry (Theory)	10	MSA

Award: **B.Sc. (Hons)**

Discipline: **Chemistry**

Course Name: **Inorganic Chemistry**

Course Code: **BSCHCEM601**

Full Marks: **10**

Time : **30 mins**

Q.1. Answer any five (05) questions.

5x2=10

- a) What do you mean by precision and accuracy? Explain with examples.
- (b) What do you mean by significant figure? Calculate the result of the following in proper significant figure: $(9.124 \times 8166) / (26.9502 \times 2.363) = ?$
- (c) What is the oxidation number of Fe in oxyhaemoglobin. What do you mean by Bohr effect?
- (d) Give one example of natural rubber. What is the unit of Nylon-66?
- (e) What do you mean by systematic error? Give Examples.
- (f) What do you mean by co-polymers? Give one example.
- (g) What are the basic differences of photosynthesis-I and Photosynthesis-II?
- (h) Thin layer chromatography (TLC) or paper chromatography is required prior to perform column chromatography. Explain.
- i) Draw the structure of Ziegler-Natta catalyst and describe its function.
- k) Give two examples nonplatinum based chemicals that are used as anti-cancer drugs.

(10)

Main Answer Booklet Number: KNU/ 103211220030 (Rohit Sharma)

Course Code: BSCHCEM601

Course Name: Inorganic chemistry - V

DO NOT WRITE HERE

1(a) Ans:

Precision: The extent to which measured readings are close, called precision.

Ex: Precision is a measure of the reproducibility of the measurement.

Accuracy: The extent to which readings are close to the real value, called Accuracy.

2

Ex: Accuracy is a measure the closeness of the true value of quantity of measurement.

1(e) Ans:

systematic error: when an observed or calculated value deviated from the true value in a consistent way, called systematic error.

2

Ex: This error occurs in solar radiation because trees or buildings shade of the radiometer.

1/b)
Ans:

Significant figure:- Those significant or important digits, which convey the measuring according to its accuracy, called significant figure.

2) Ex:- 6.658 has 4 significant figure.

$$\begin{array}{r} \overset{4}{9.124} \times \overset{4}{8166} \\ \hline \end{array} = 1169.9544$$

~~Example of A:~~

$$\begin{array}{r} \overset{6}{26.9502} \times \overset{4}{2.363} \\ \hline \end{array} = 11610$$

(key NO = 2.363)

= 5 (significant number)

DO NOT WRITE HERE

DO NOT WRITE HERE

1(d) Ans:

Example of Natural rubber: ~~Rubber tree~~
poly-isoprene

Unit of Nylon-66: ~~26.32 g/mol~~

Adipic acid
& Diamine

2f

1(f) Ans:

co-polymers: A polymer derived from more than one species of monomer, called co-polymers.

Ex:- polyethylene-vinyl acetate (PEVA)

2f

HOD IN MATHEMATICS
B.C. College, Asansol

UG Examination

B.Sc (Hons.) 5th semester

Paper Name: Set Theory and Metric Spaces

Paper Code: BSCHMTMC501(CC-11)

Department of Mathematics

Bidhan Chandra college, Asansol -4

Full Marks: 10

Time: 12:00 - 12:30pm

Date: 13/12/2023

Write your name, Registration number, University roll number and Paper name very clearly on the top of the sheet

Answer any five of the following questions:

2×5=10

1. Define an open and a closed set in a metric space. Prove that if a set is open then its complement is closed.
2. Examine whether (\mathbb{R}, d) is a metric Or not where $d(x, y) = |\sin(x-y)|$ for all $x, y \in \mathbb{R}$.
3. Define a limit point on a set X . Find the limit points of the set $\{1, 2, 3, 4\}$ if exists.
4. Give an example to show that discrete metric space of any set cannot have a limit point.
5. In a metric space (X, d) prove that union of a finite number of closed sets is closed.
6. Prove that in the metric space (\mathbb{N}, d) where $d(x, y) = \left| \frac{1}{x} - \frac{1}{y} \right|$, each singleton set is open.
7. $A = \mathbb{N}$ is countable, then find a bijection $f: \mathbb{N} \rightarrow \mathbb{N}$
8. If A and B are both countably infinite, then prove that $A \cup B$ is countably infinite

Main Answer Booklet Number: KNU22/ Sourav Dasgupta.

Course Code: Reg. 103211220074

Course Name: Metric space & Set theory

2) Let, (\mathbb{R}, d) be a metric space.

$$\therefore d(x, y) = |\sin(x-y)| \quad \forall x, y \in \mathbb{R}.$$

$$\therefore |\sin(x-y)| \geq 0.$$

$$\therefore d(x, y) \geq 0 \quad (\text{positivity})$$

$$d(x, y) = |\sin(x-y)| = |\sin(y-x)| = d(y, x) \quad (\text{Symmetry})$$

$$x, y, z \in \mathbb{R}.$$

$$\therefore d(x, y) = |\sin(x-y)| = |\sin(x-z+z-y)|$$

$$= |\sin(x-z+z-y)|$$

2

$$= |\sin(x-z) \cos(z-y) + \cos(x-z) \sin(z-y)|$$

$$\leq |\sin(x-z) \cos(z-y)| + |\cos(x-z) \sin(z-y)|$$

$$\leq |\sin(x-z)| + |\sin(z-y)|$$

$$\begin{cases} |\cos(z-y)| \leq 1 \\ |\cos(x-z)| \leq 1 \end{cases}$$

$$\leq d(x, z) + d(z, y)$$

~~Q.E.D~~ [triangle inequality satisfied]

$$d(x, y) = 0.$$

$$|\sin(x-y)| = 0 = \sin n\pi \quad \forall n = 1, 2, \dots$$

$$\therefore x = y$$

[identity satisfied]

$\therefore d(x, y)$ is a metric space.

INTERNAL THEORY AND PRACTICAL EXAMINATION-2024

B.SC 6th SEMESTER PROGRAM SUBJECT -BOTANY

All the students are hereby informed that their **6th semester Internal theory and practical examination** will be held on 25/05/2024

Time: 11:00a.m onwards

Dated: 21 May, 2024

Department of Botany

6th Semester Internal Theory Botany Program Exam

Paper Code-BSCPBOTC601

Paper Name- Cytogenetics

F.M.- 10

Time-30mins

Date-25/05/2024

Answer any 5 question of the following:

- 1) What is G₀ phase? Give example of a cell remain in G₀ phase.
- 2) Name one semi-autonomous cell organelle and mention its function.
- 3) Define frame shift mutation.
- 4) Name one alkylating agent and one base analogue.
- 5) Chromosome number '2n-1' and '2n+1'. What does it signify.
- 6) State the "law of independent assortment" by Mendel.

Ans. 1 G₀ phase is a phase in which the cell does not divide and grows and enters a stage of dormancy or to perform some specialised function. (neuron)
Nerve cell of brain and heart cells are examples of cells which remain in G₀ phase.

Ans. Chloroplast is an example of semi-autonomous cell organelle.

The functions of chloroplast are:-

1.) Photosynthesis - The primary function of chloroplast is photosynthesis by converting light energy into chemical energy and water stored in glucose.

2.) Oxygen production - During photosynthesis, oxygen is released which helps in respiration of animals.

3.) It is a type of genetic mutation caused by indels of a number of nucleotides in a DNA sequence that is not divisible by three. It is caused by deletion or insertion in a DNA sequence that shifts the way sequence is read.

2024

6TH SEM INTERNAL PRACTICAL EXAMINATION

SUBJECT-BOTANY

COURSE NAME- CYTOGENETICS

COURSE CODE- BSCPBOTDSE601

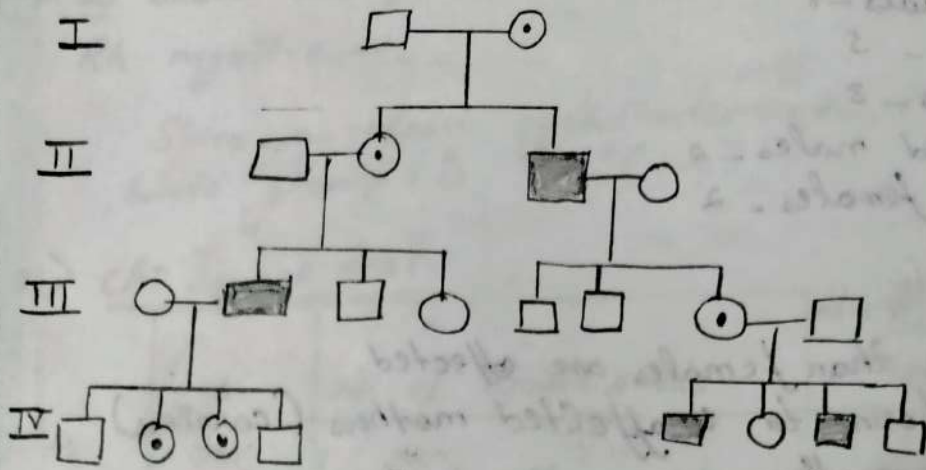

Full Marks: 30

Time:2 hours

Answer the following question:

- 1.From the given pedigree chart, study the pedigree analysis and find what the pattern of inheritance does this trait follow. (6)
- 2.Test your blood group with the blood grouping kit. (4)
- 3.Consider the supplied sample 'A' represent seeds of F2 generation from the selfed F1 plants. Apply Chi-Square test and comment on the mode of inheritance of the seed size and seed coat colour . (10)
- 4.Make a temporary squash preparation with aceto-orcien of the supplied root tip material 'B'. draw neatly any two characteristic divisional stages observed by you, label properly and comment on them. (5+5=10)

Pedigree Analysis

Description of the pedigree:

1. > Total no. of generations - 4
2. > Total no. of individuals - 22
3. > Total no. of males - 13
4. > Total no. of females - 9

1st generation:

Normal male, carrier female

Total no. of individuals - 2

Total no. of males - 1

Total no. of females - 1

Total no. of affected males - 0

Total no. of carrier females - 1

2nd generation:

Total no. of individuals - 4

Total no. of males - 2

Total no. of females - 2

Total no. of affected males - 1

Total no. of carrier females - 1

3rd generation:

Total no. of individuals - 8

Total no. of males - 5

Total no. of females - 3

Total no. of affected males - 1⁽¹⁾

Total no. of carrier females - 2

DO NOT WRITE HERE

x5

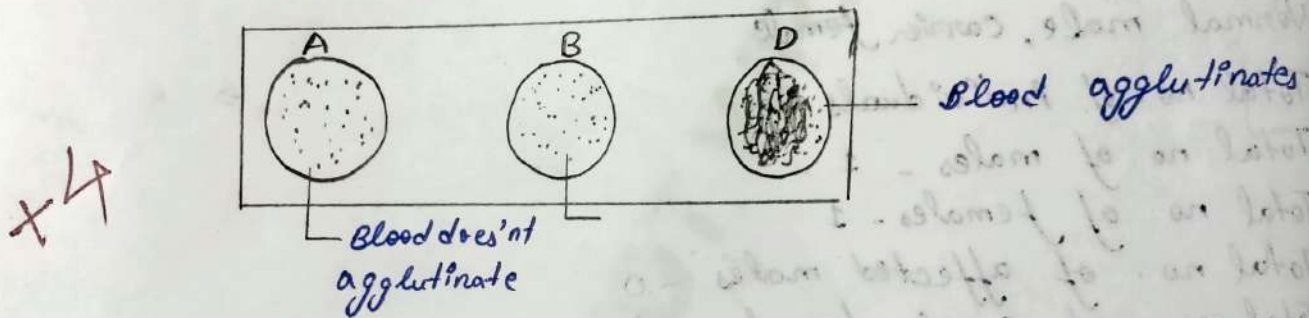

4th generation

- Total no. of individuals - 8
- Total no. of males - 5
- Total no. of females - 3
- Total no. of affected males - 2
- Total no. of carrier females - 2

Pedigree Analysis:

1. Usually more males than females are affected.
 2. Affected ^{sons} are born to unaffected mothers (carriers)
i.e. they skip a generation.
 3. Never passed from father to son.
 4. All daughters of affected fathers are carriers (i.e. they can pass the allele to a daughter).
- Hence, the trait is X-linked recessive.

2. ABO Blood grouping:

Observations:-

1. If blood near point 'A' agglutinates, then the blood group is 'A'.
2. If the blood near point 'B' agglutinates, then the blood group is 'B'.
3. If the blood near both points 'A' and 'B' agglutinates, then the blood group is 'AB'.
4. If the blood near both points 'A' and 'B' does not agglutinate, then the blood group is 'O'.
5. If the blood near point 'D' agglutinates, then the blood group is Rh positive.

NOTICE

It is hereby informed to all the students of 1st semester 2023-24 that Internal RE-Examination of following paper will be held as per the schedule. All the students are asked to present on the said date positively.

Name of the Paper	Date	Time
Introduction to Physical Geography (Assignment-Landforms of Glacier Work)	28.02.2024	12.00 P.M
Elementary practical in Physical Geography	28.02.2024	1.00-2.30 P.M

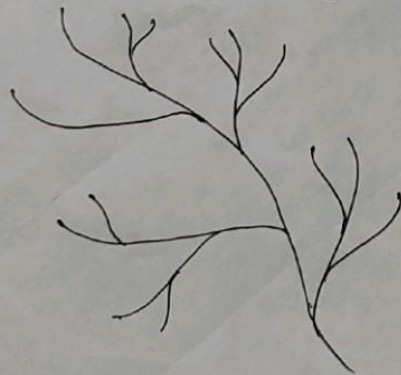

Dated- 21/02/2024

Coordinator of the Department
Geography Department
Bidhan Chandra College

1st SEMESTER
INTERNAL EXAMINATION
PRACTICAL.

FULL MARKS - 20

1. (a) What do you mean by Scale? (1+3)
(b) Construct Linear Scale showing 2.5 km mark on primary division and 0.5 km of secondary division R.F. is $1:80,000$.
2. Characteristics of any two Igneous Rocks? (2)
3. Explain — (a) Unconformity? (1)
(b) Dip (1)
(c) Strike (1)
4. What is the scale of Degree sheet and half degree sheet? (2)
5. Relationship between Relief and Drainage Density? (2)
6. Stream Ordering :- (4)

7. Difference between projected and composite profile? (3)

1.(b)

1 cm map distance is represented by 80,000 cm on a ground distance.

$$\therefore 1 \text{ " " " " " } \frac{80,000}{100,000} \text{ " " " "}$$
$$= 0.8 \text{ km}$$

Primary Division:-

0.8 km ground distance is represented by 1 cm on a map distance.

$$\therefore 1 \text{ " " " " " } \frac{1}{0.8} \text{ " " " "}$$
$$\therefore 2.5 \text{ " " " " " } \frac{1 \times 2.5}{0.8} \text{ " " " "}$$
$$= 3.12 \text{ cm}$$

Secondary Division:-

0.8 km ground distance is represented by 1 cm on a map distance.

$$\therefore 1 \text{ " " " " " } \frac{1}{0.8} \text{ " " " "}$$
$$\therefore 0.5 \text{ " " " " " } \frac{1 \times 0.5}{0.8} \text{ " " " "}$$
$$= 0.62 \text{ cm}$$

Hence, The number of primary Division = 4

Hence, The number of secondary Division = 5

\therefore The value of one primary Division

The value of one secondary Division

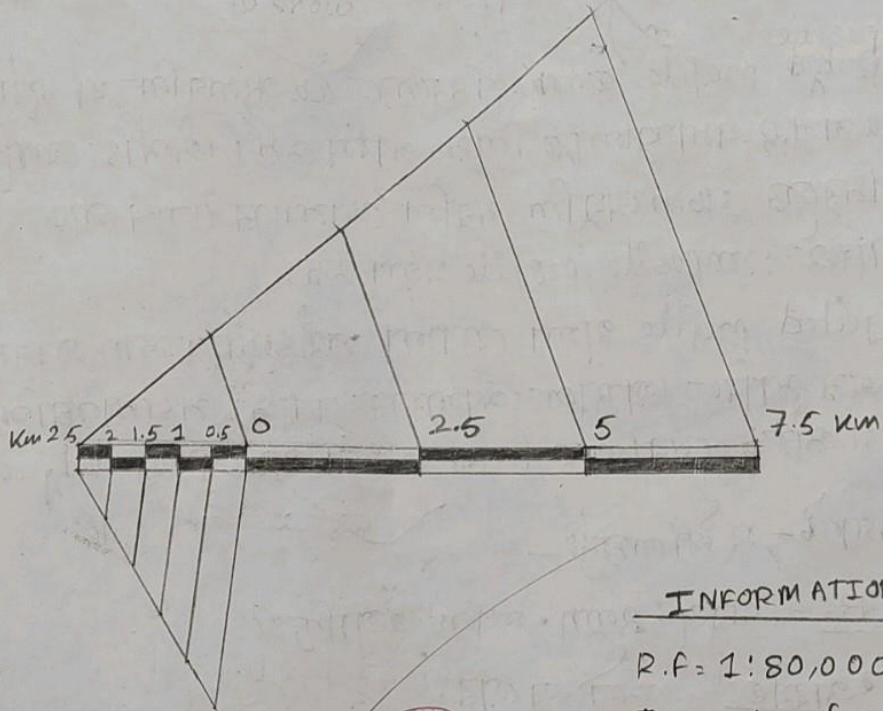

$$= \frac{2.5}{0.5} = 5$$

\therefore total length of the scale = $3.12 \times 4 = 12.48 \text{ cm}$.

- 1 Q. - Write a short note on Gender?
- 2 Q. - Write a short note on Hegemony.
- 3 Q. - Write a difference between Sex and Gender.

Ans-

GENDER

Genders are social construction. Gender is not same as we think or know. Gender is different from sex.

Gender ^{role} is not same for male and female. The gender is constructed by our different social institute such as school, home, society etc.

Genders have some roles for male and female and their characteristics such as

BBA 3rd Semester Internal Exam 2023

- Financial Management** 4x5=20
- Answer any four from the following**
- 1) What is Time Value of Money? State its significance.
 - 2) What is Financial Statement? Discuss its Nature.
 - 3) Explain the determinants affecting the Working Capital of an organisation.
 - 4) What is the importance of Cost of Capital?
 - 5) Short Note: Significance of Capital Budgeting

- Marketing Management** 4x5=20
- Answer any four from the following**
1. Discuss in brief different types of Marketing Environment.
 2. Consumer buying behaviour is influenced by different factors- discuss.
 3. Define positioning. What are the different bases for it- discuss.
 4. Discuss in brief important steps associated with Marketing Research.
 5. As a Marketing Manager how can you develop a new product of your company?

- Computer Fundamentals** 4x5=20
- Answer any four from the following**
1. Difference between software and hardware
 2. Classification of software
 3. Difference between primary and secondary memory
 4. Give a diagram of a computer
 5. Write note on Multitasking and multiuser operating system

Answer either MATHS OR RETAIL, as per University form fill up
Business Mathematics

- Answer any four from the following** 4x5=20
1. $a^x = b^y = c^z$ and $b^2 = ac$ prove that $\frac{2}{x} + \frac{1}{y} = \frac{2}{z}$
 2. If $x = 2^{1/3} + 2^{2/3}$, show that $x^3 - 6x - 6 = 0$
 3. If the roots of the equation $2x^2 - 6x + 8 = 0$ be α and β , find the value of $\alpha^3 + \beta^3$
 4. If $2^x = 3^y = 6^z$, show that $z = \frac{x}{x+y}$
 5. If the 3rd term of an AP is 12 and the 6th term is 24. Find the 20th term of the AP

- Retail Marketing** 4x5=20
- Answer any four from the following**
1. What are the different types of retail format?
 2. What are the functions of retailer?
 3. Explain retail value chain analysis
 4. State the Importance of retailing
 5. Difference between retailer and wholesaler

Financial Management

i) The Time value of money is the concept that a sum of money is worth more now than the same sum will be at a future date due to its earnings potential in the interim.

ii) Importance or Significance :-

i) TVM helps in calculating the PV of interest earned on investment as well as on interest itself too.

ii) One should compare PV of benefits with the opportunity cost for decision making.

iii) TVM is an important concept to be consensual to by a insurance.

iv) While deciding for which the investment to opt, one should consider the PV of Cash flow.

4

2) Financial Statement are written Records that convey the business and the financial statement performance of a company.

Nature of financial Statement :

- i) Recorded facts of business Transactions
- ii) Accounting Conventions followed to participate accounting techniques
- iii) Personal Judgements have an important bearing
- iv) Accounting Concepts followed.
- v) Importance of Cost of Capital are:
 - i) ^{useful} Helps in Capital budgeting decisions. It helps in calculating profitability of various investment proposal.
 - ii) Capital is a very useful factor in designing the firm's Capital Adventure.
 - iii) A company usually prefers a method of financing which bears the least cost of capital.
 - iv) The Cost of Capital can be used to evaluate the financial performance of the management.

Many areas of decision making such as retained earnings, working capital management etc.

b) Significance of Capital Budgeting

i) They are irreversible in nature.

ii) Capital rationing gives sufficient scope for the financial manager to evaluate different proposals and only viable project must be taken up for investment.

iii) Capital budgeting offers effective control on cost of capital expenditure projects.

iv) It helps the management to avoid over investment and under investment.

Computer Fundamentals

1)

Software

- i) it is the program which is executed by Cpu
- ii) It cannot be touched
- iii) it is intangible
- iv) it cannot be executed without hardware
- v) it is debugged in case of problem

Hardware

- i) It is a physical part of computer.
- ii) it can be touched
- iii) it is Tangible
- iv) it can perform any task without software
- v) it is repaired in case of problem.

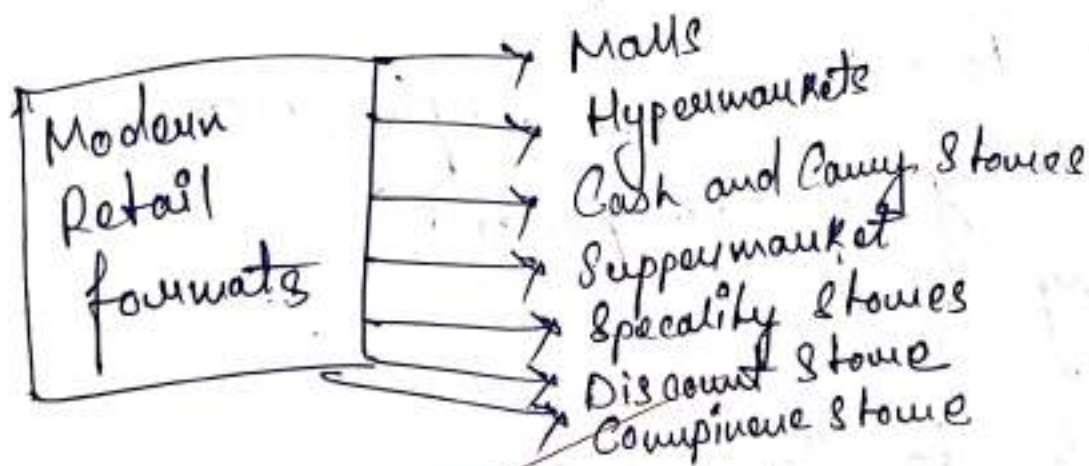

3) Primary Memory

- i) It is temporary
- ii) It is directly accessible by Cpu
- iii) It can be accessed by database
- iv) it is ^{considered} ~~considered~~ than Secondary

Secondary memory

- i) it is permanent
- ii) it is not directly accessible by Cpu
- iii) It cannot be accessed by I/O Channel
- iv) it is cheaper than primary

Retail Marketing

2) Functions of retailers are:-

- i) Buying and assembling
- ii) Warehousing and storing
- iii) Selling
- iv) Credit facility
- v) Risk Bearing
- vi) Grading and packing
- vii) Collection and supply market information

(4)

4. Importance of Retailing

Services to wholesalers and producers

- i) Advertising of new product
- ii) Sharing of risks

Services to Consumers

- i) Selection
- ii) Variety of Goods
- iii) Distribution

(B)

Marketing Management

Different types of marketing environment

i) Demographic Environment

ii) Cultural Environment

iii) Economical Environment

iv) Personal Environment

5th Semester Internal Exam 2023

International Business

Answer any four from the following

4x5=20

1. Write short note on EU
2. Distinguish between BOP and BOT
3. What is the Product Life Cycle Theory of International Trade?
4. Distinguish between WTO and GATT
5. Explain the nature of International Business

Business Law

Answer any four from the following

4x5=20

1. State the essential elements of a valid contract.
2. Distinguish between condition & warranty.
3. Distinguish between fraud & misrepresentation.
4. Write short notes on Quasi contract.
5. What are the contents of partnership deed?

ANY TWO SUBJECTS AS PER UNIVERSITY FORMFILLUP

Sales and Distribution Management

Answer any four from the following

4x5=20

1. Discuss different bases and techniques to solve objections raised by customers.
2. What are the different forms of Sales Organisation?
3. Discuss different sources of Recruitment.
4. Discuss in brief different types of compensation plan.
5. Discuss the functions of Retailers and Wholesalers.

Industrial Relations

Answer any four from the following

4x5=20

1. Explain objectives of industrial relations.
2. Explain the problems faced by the trade union in India.
3. Write the objectives of workers' participation in management.
4. Write the importance of workers' participation in management.
5. How is industrial disputes settled??

Taxation

Answer any four from the following

4x5=20

1. Distinguish between heads of income & sources of income.
2. Write short notes on Assessee
3. Write short notes on perquisites.
4. Write short notes on specified employee
5. Mention 5 items which are eligible for deduction u/s 80C

International Business

- 1) The European Union (EU) is a unique economic and political union between 27 European countries. The EU that we know today has its roots in several treaties signed in the aftermath of the second world war. The first step was to foster economic cooperation, based on the idea that countries that trade with another become economically independent and so are more likely to avoid conflict.

- 2)
- | BOP | BOT |
|--|---|
| <p>i) It is the financial statement that keep track of all the economic transaction by the nation with rest of the world.</p> <p>ii) It is defined as - (Balance of Payment).</p> <p>iii) It deals with the proper accounting transaction conducted by the nation.</p> | <p>i) It is a financial statement that captures the nation's import and export of commodities with the rest of the world.</p> <p>ii) It is defined as - (Balance of Trade).</p> <p>iii) It deals with the net profit or loss that a country incurs from import and export of goods.</p> |

IV) Transaction related to transfers, goods and services are included in BPO.

v) Capital transfer are included.

iv) Transaction related to goods are included in BOT.

v) Capital transfer are not included.

3) Product Life Cycle Theory - The theory originating in the field of marketing stated that a product life cycle has three distinct stages :-

a) New Product.

b) Maturing Product.

c) Standardized Product.

The theory assumed that the production of new product will occur completely in the home country of its innovation.

4) WTO	GATT
<p>i) An International organisation created in 1955 to regulate and liberalize global trade.</p> <p>ii) An institution with legal authority to enforce trade agreements and resolve disputes.</p> <p>iii) Expands the scope to include services, intellectual property, and agricultural products.</p> <p>iv) Has permanent secretariat to oversee daily operations and facilitate negotiation.</p>	<p>i) An agreement established in 1947 to promote International business.</p> <p>ii) A set of rules governing international trade among members country.</p> <p>iii) Focused primarily on reducing tariffs on goods.</p> <p>iv) Operated on a provisional basis without a permanent secretariats.</p>

Business Law

§ 2)

Condition

It is stipulation which is essential to the main purpose of contract of sales.

i) Condition is so essential to contract that the breaking of which cancel out contract.

ii) Ownership on goods cannot be transferred without fulfilling the condition.

iii) In the case of breach of contract, the affected party can cancel the contract and claims damages.

iv) Breach of condition may be treated as breach of warranty.

Warranty.

i) It is stipulation which is collateral to the main purpose of contract.

ii) It is of subsidiary or inferior character. The violation of warranty will not revoke contract.

iii) Ownership on goods can be transferred on the buyer without fulfilling the warranty.

iv) In the case of breach of warranty, the affected party cannot cancel the contract but can claim damage only.

v) Breach of warranty cannot be treated as breach of condition.

3

Fraud

i) A deceptive act done intentionally by one party in order to influence the other party to enter into the contract is known as Fraud.

ii) Section 2 (17) of the Indian Contract Act, 1872.

iii) In a Fraud, the party making the representation knows the statement is not true. (3)

Misrepresentation.

i) The representation of the mis-statement, made innocently which persuades other party to enter into the contract is known as misrepresentation.

ii) Section 2 (18) of the Indian Contract Act, 1872.

iii) In Misrepresentation, the party making the presentation, believe that the statement is true.

iv) The aggrieved party, has right to claim for damages.

v) The contract is voidable even if the truth can be discovered in normal diligence.

iv) The aggrieved party has no right to sue the other party for damage.

v) The contract is not voidable if the truth can be discovered in normal diligence.

4) Quasi Contract is another name of a contract implied in law, which act as remedy for a dispute between two parties that don't have contract. A Quasi Contract is a legal obligation - not a traditional contract. which is decided by Judge for one party to compensate other.

5) A partnership deed may contain any matter relating to the regulation of partnership but all provision, in the deed should be within the limits of Indian Partnership act 1932. However A Partnership Deed should contain the following clause.

- Nature of Business
- Duration of Partnership.
- Name of the Firm;
- Capital.
- Books of Account.

Sales and Distribution Management.

Forms of Sales organisation are:-

- 1) Product are sales line.
- 2) Customer are Account structure.
- 3) Industries are vertical structure.
- 4) The Assembly line / Functional structure
- 5) The Island.
- 6) The P.O.D.
- 7) Seas company.

INTERNAL ASSESSMENT

Sub: - Computer Organisation and Architecture

5x2=10

Answer any two of the following questions

- 1) Discuss Micro Program Control Unit
- 2) Write a short note on DMA
- 3) Discuss different types of Interrupts

Sub:- Object Oriented Programming with C++

Answer any two of the following questions

- 1) What is Constructor explain in details?
- 2) In brief describe about Destructor?
- 3) Write short note on Inheritance?

Sub: - Database Management System.

Answer any two of the following questions

- 1) What is ER Diagram? Explain with an example
- 2) What is BCNF? Explain with an example
- 3) Write a short note on Relational Algebra

Sub: - Reasoning and Aptitude

2x5=10

Answer ALL of the following questions

1) A certain amount was divided between Sangeetha and Sunita in the 5:4. If Sunita's share was Rs.3600, the amount is:

- A - 7900
- B - 8100
- C - 8300
- D - 8500

2) A can fabricate a divider in 30 days, while B alone can assemble it in 40 days, If they construct it together and get an installment of RS. 7000, what B's offer?

- A - 2000
- B - 3000
- C - 4000
- D - 6500

3) A can run 1 km in 3 min.10sec. And B can cover the same distance in 3 min. 20 sec. By what distance can A beat B?

- A - 80 m
- B - 70 m
- C - 60 m
- D - 50 m

NAME Debjee Halder
Roll No. 19 Examination (3rd) Internal
Subject _____ Code _____
Instructor Signature _____

Object oriented programming with C++

1) constructor is used in C++ when an object is created from a class. It helps an object easily constructed and gaining attributes and methods from their certain class.

3) class can inherit certain attributes and functions from one class or many classes. The function is known as inheritance. The classes which inherit from a class is known as ^{derivative} ~~derivation~~ classes and letter is called parent class.

(9)

computer organisation and Architecture

2) DMA stands for Data Memory Access. It is an internal storage unit which is the temporary memory location reserved by the programmer for running a particular program.

1) Micro program control unit is the control ~~center~~ center unit inside the memory chip of the CPU which manages the data usage within a computer system throughout its entire functionality.

✓
(8)

Database Management System

3) Relational algebra is a fundamental concept in database management. It's like the language of database. It helps us manipulate data using mathematical operation. It's powerful tool for analyzing and organizing information for table.

2) BCNF stands for Boyce - Codd Normal form. It is database normalization technique used to ~~eliminate~~ redundancy and ensure data integrity. In BCNF every determined must be candidate key.

ex: - let's say we have a table for students with columns.

Student ID, course Id, Grade in this case. ~~The~~ ^{It} ~~determines~~ determines the "Grade" of a students. (3)

Reasoning and Aptitude

1) Sangeeta : Sunita = 3 : 4

Sunita's amount = 3600

Let the total amount is x

$$\frac{4x}{(3+4)} = 3600$$

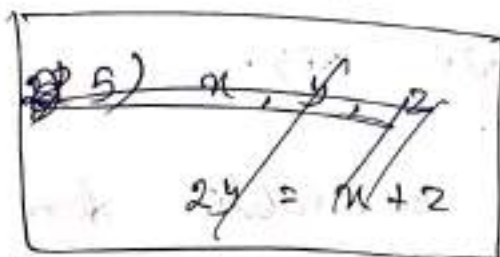

$$\Rightarrow 4x = 3600 \times 7$$

$$\Rightarrow x = 900 \times 7$$

$$\Rightarrow x = 8100$$

(B)

~~(B)~~ \rightarrow (B) = 8100

5) — (B) 2, 3, 8

4) — (A) 375

2) — (C) 4000

3) — (d) 30

(4)

Mathematics - II

90) A Cauchy sequence of numbers is which terms get arbitrarily close to each other as the sequence progresses.

In other words, for any small positive values there exist a point in the sequence after which all the terms are within the distance of each other.

a)
$$e \frac{d^2y}{dx^2} - x \frac{dy}{dx} + y = 0$$

From the above equation we can say that the ~~equ~~ equation has order $n = 2$ and degree 2.

b) circle ~~equ~~ equation with center $(9, 0)$ and radius r is given by

$$(x-a)^2 + y^2 = r^2$$

$$\Rightarrow (0-a)^2 + y^2 = r^2$$

$$\Rightarrow (0-a)^2 + 0^2 = r^2$$

$$\Rightarrow a^2 = r^2$$

$$\therefore x^2 = r^2$$

$$e) \frac{dy}{dx} = e^{x-y}$$

$$\Rightarrow \frac{dy}{dx} = \frac{e^x}{e^y}$$

$$\Rightarrow \frac{d}{dx}(y) = \frac{e^y}{e^x}$$

NOW differentiate both sides we get

$$\frac{d}{dx} \left(\frac{d}{dx}(y) \right) = \frac{d}{dx} \left(\frac{e^x}{e^y} \right)$$

$$y = 1 \left[\text{As } \frac{d}{dx} \left(\frac{e^y}{e^x} \right) = 1 \right]$$

$$\therefore y = 1$$

$$d) \int \frac{\sqrt{2x+1}}{\sqrt{3x+2}} dx$$

$$\Rightarrow \int \frac{(2x+1)(2x+1)}{(3x+2)(2x+1)} dx$$

$$\Rightarrow \int \frac{(2x+1)^2}{6x^2 + 3x + 4x + 2} dx$$

$$\Rightarrow \int \frac{(2x+1) dx}{\sqrt{6x^2 + 7x + 2}}$$

$$\Rightarrow \left(\frac{1}{3} \cdot 2 - \frac{1}{6\sqrt{6}} \right) \quad (9)$$

$$\Rightarrow \frac{dx}{\left(x + \frac{7}{12}\right)^2 - 3 \left(\frac{1}{2}\right)^2}$$

Bidhan Chandra College
Asansol
BCA 1st Semester
INTERNAL ASSESSMENT EXAMINATION 2024

Answer any TWO from the following questions (FROM EACH SUBJECT)

5x2=10

C LANGUAGE

Write the code for the following problems-

- 1) Print the Fibonacci series for n terms
- 2) Print the first 100 prime numbers.
- 3) Write a menu driven program that calculates and print the salary which increases 10% every year.
- 4) Print any Pascal triangle

FINANCIAL ACCOUNTING

- 1) State the objectives of accounting.
- 2) Distinguish between book-keeping and accounting
- 3) Distinguish between Journal and Ledger

E- Commerce

- 1) Explain different types of E Commerce
- 2) Write short notes on UPI and NCPI
- 3) Explain CRM and ERP

MIL (English)

- 1) What are the different types of communication
- 2) What are the differences between dialogue and monologue
- 3) Define Miscommunication

NAME - Smiti kumari
REG NO - 17 BCA 1st Sem 2024
Subject: _____

BCA Internal Examination 2024

Sub -> financial accounting

Accounting is the process of recording financial transactions to the business the accounting process includes

- ① As i) Accounting facilitates the management of the record of the transaction and other officials state
- ↳ It gives an interest about the chances of profitability or failure of losses.
- The process assists the management by helping them to make the best decision besides they accounting organisations financial business of the organisation.
- It also help in evolution of the employees and the worker efficiency in addition communication and presenting the accounting information in the use
- Accounting contributes the biggest to any organisation by preventing fraud and prevent profit risk.

4

e-commerce

(2) (1) UPI short notes for unified payment interface on the move of one bank account to another bank account.

(2) NPCI short notes for national payment corporation of India it is a whole payment system with a single interface made by National payment corporation of India (NPCI)

(3) CRM and ERP are both information solution that drive business value. Integrating and connecting and automating process. CRM connects customer interface and right, while automate business process and operation.

financial accounting

Book-keeping

Records and categorises payment and expenses

Sends customer invoice and send payment receipts

Conduct bank reconciliation every month.

Prepares monthly financial statements.

Accounting

• prepare adiviting entries

• Analyse the cost of operation.

• Advises business owners during financial year making

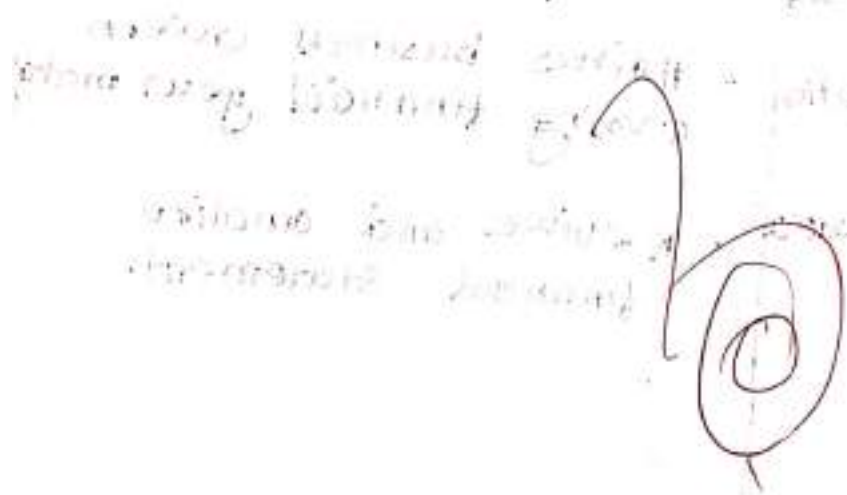

• Review and analyse financial statement.

C Language

①

```
#include (stdio.h)
#include &lt;conio.h>
void main
{ int i; prim (int num)
  if (num % i)
```

```

⑩ #include <stdio.h>
#include <conio.h>
void main()
{
    int first = 0, second = 1, next;
    printf("fibonacci series for %d terms\n", n);
    for (int i = 0; i < n; i++)
    {
        printf("%d ", first);
        next = first + second;
        second = next;
        first = next;
    }
}
int main()
{
    int n;
    printf("enter the no. of term");
    scanf("%d", &n);
    printf("fibonacci\n");
printf
    return 0;
}

```
