Subodh Prasad B.C.colg

NOTICE

Internal Examination (10 Marks written) is scheduled on 24.06.22 & 25.06.22 from 12.00 O'clock in room no. 301 & 302

1:42 pm

On **24.06.22** you will have Corporate Accounting

On **25.06.22** you will have remaining two subjects: Company Law & Macro Economics

1:43 pm

BIDHAN CHANDRA COLLEGE, ASANSOL
DEPARTMENT OF COMMERCE
B.COM HONOURS IN ACCOUNTING (1ST SEM)
INTERNAL ASSESSMENT (FULL MARKS: 10)

SUBJECT: FINANCIAL ACCOUNTING

1. (a) Give notes on:
   (i)   Entity Concept.   (ii)   Conservative Concept.
   (b) Define Accounting Standard.
   (c) Give two examples of Deferred Revenue Expenditure.   6+2+2

OR

(a) Distinguish between Consignment & Sale.

(b) Distinguish between Hire-Purchase and Installment Payment

   System.

(c) Mention two circumstances for which a partnership firm will

   be dissolved.   4+4+2

[N.B**:** Answer to be sent: ujjwalchowdhury1963@gmail.com]

SUBJECT: BUSINESS LAWS

1. (a) Discuss the termination of a Contract by agreement.
   (b) State in brief the rules regarding sale of goods by Auction. 5+5
                           [N.B**:** Answer to be sent: dipmon68@gmail.com]

SUBJECT: MICRO ECONOMICS

1. State and explain the properties of an Iso-quant.   10
                  [N.B**:** Answer to be sent: sanchita.basak90@gmail.com]

Ref.No.   Date: 16/05/2022

INTERNAL THEORY & PRACTICAL EXAMINATION-2022
B.SC 1st SEMESTER PROGRAM
SUBJECT -BOTANY

It is hereby notified to all the students of 2nd semester (Prog. in Botany) that your internal theory and practical examination will be held on 22/05/2022,

Time- 11AM to 1PM

Chatterjee
16. 05. 2022

Dept. of Botany

2nd Semester Internal Theory Botany Program Exam 2022

Paper Code-BSCPBOTC201

Paper Name- Mycology and Phytopathology

F.M.- 10   Time-30mins

Date-22/05/2022

Answer the following question(ANY ONE)

Write down the thallus structure of lichen with proper diagram.

Or

Describe the different types of fruit body of Ascomycetes.

KNU/ 57246

P. Mukherjee

Registration No → 1032111250006

Name → Anirban Dey.

Main Answer Booklet Number: KNU/ ...57246.

Course Code: BSCPBOTC 201

Course Name: Mycology and Phytopathology.

DO NOT WRITE HERE

Q.1) Write the thallus structure of lichens with proper diagram. ?

Ans → Lichen is a co-organism which consist of fungus and algae. It is found one wet rock surface or hot soil, outer surface. The fungus compound is called as ascomyectes and the algae compound is known as rhodophyceae. The whole body content or structure is called thallus.

(i) Crustose → The crustose lichens found on rock and barks trees. Sub-stratum the crustose lichens has apothecium.

(ii) Fruticose → The fruticose lichens have the fruiting body called arizing. The arizing structure are known as briny. This arizing are

F.M - 30   TIME -2hr

1.Identify the specimen A , describe the fruit body structure and draw proper diagram and write down the systematic position. (7)
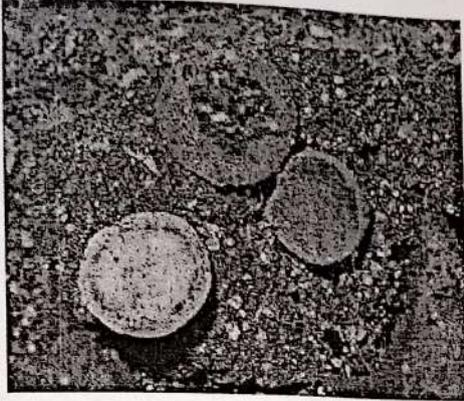

A

2.Write down the symptoms of the following disease specimen B, mention the disease name, pathogen name and host name.Draw the proper diagram. (7)

3.Identify the specimen C,D,E,F. (2.5X4=10)

4.Viva-voce. (6)

1) Write a newspaper report on the basis of the following points :

▶ Incident : An eminent person passes away; Date : 09/01/2022 ; Name : Jashodhra Bagchi ; Age : 75 years ; known for : Indian feminist critic, founder director of the school of women studies ; chairperson of west Bengal Human Rights commission ; Husband : Amiya Bagchi.

Ans.

Jashodhra Bagchi
Passes away

— By a staff reporter

Kolkata January 9, 2022 : A schoolar who voiced women's causes and worked for their empowerment, Jashodhra Bagchi passed away her Five month ago. At the time of death she was 75 years old. She was a leading Indian feminist, critic and a former Jadavpur university professor of English. Bagchi was the founder director of the school women studies, Jadavpur university, and later was the chairperson of west Bengal Human Rights commission. Her demise has cast a pall of gloom on J.U. and women organizations acroos the country. Bagchi was born in 1947 and was a brilliant student. she attendend presidency college and then sommerville college, oxford and new Hall, cambridge. Jashodhra Bagchi was married to economist Amiya Bagchi.

2✗

2) Report on a Free Health cheack up camp to raise fund for the corona victins of West Bengal.

Ans.

Free Health cheak up camp Fun Raising Drive organise.
BY Burnpur club

Burnpur club organise by fund raising drive for the corona vinus victins for the west Bengal along with a health cheack up camp yesterday. About 3000 People attended camp. The team of doctors heel by D. Roy of Asansol District Hospital were present in the camp. There was a gneat enthosim among the local people. It was organised in the college hall of B.C. Many dighistnies inculding S.B, A.S.P and local M.L.A Were present there many people were given medicine Kit, Mask, sanitizer. The organiser Informed that the funel raise in this conneetion will be sent to the Govennar's relief fund to be disbuted among the corona victins. It was a ~~genral~~ grand success.

Bidhan Chandra College

6th Semester

Full Marks 20

A) Answer any four

5X4=20

1) What is abstract class? Give example
2) What is interface? Give example
3) What is class and what is object? Give example
4) Write a short note on exception handling
5) Write a program to print Fibonacci series

Bidhan Chandra College

6th Semester

Full Marks 20

A) Answer any four

5X4=20

1) Write a short note on Python Function.
2) Write a program to print the prime numbers within a given range.
3) What is Python Module? Give example.
4) What is GUI? What are its advantages?
5) Differentiate between inheritance and multiple inheritances.

C#

Q-② Interface:-

Interface in C# are blueprint of a class. It is like abstract class because all the methods inside the interface are abstract methods. It can't have method body and it can't be instantiated.

There are mainly 3 reasons to use free interface:

i) It is used to achieve abstraction.

ii) It is used to achieve loose coupling.

iii) By interface we can support the functionality of multiple inheritance.

Syntax:

```
interface < interface-name >
{
    //statements
}
```

Q-③ Class :-

Class :- It is the collection of objects which have similar properties and characteristic. It is a template or blueprint from which objects are created. It is a logical entity. It can't be physical. It doesn't occupy

memory.

Ex: Mango, apple, grapes are part of the class
• Fruit.

Object :- It is a real life entity that has
same state and behaviour. It is the basic
unit of OOP. It can be looks physical and
logical. It has 3 characteristics.

i) State :- It represents data (value),
of an object with another objects.

ii) Behaviour :- It represents the response of
an object with another objects.

iii) Identity :- It gives the unique name to an
object.

Eg :- dog has state. If we consider a
dog. Its state will be. Its name, breed,
colour. And behaviour will be running,
barking, wagging the tail.

Q-1
Abstract Class :- A class which is declared
with abstract keyword is known as abstract
class. It can't have another body.

(1)

We can't make create objects of abstract class i.e, it can't be instantiated. An abstract class contains abstract abstract methods. It can't have method body.

⊙──⊙ Syntax: abstract class-name

Syntax: abstract class { class-name }
                        {
                        // abstract method etc.
                        }

Ex:- abstract class myclass
                  {
                  // abstract method etc.
                  }

Q-④

Exception handling:- of is the way to deal with errors and handle the errors in our programs. When we feel like our code can show error we use exception handling to handle it without interrupting the flow of code.

These are many keyword used in C#

to handle the exception.

i) Try:- In try block we put the code that might throw an exception error.

whenever it find errors it outtake be executed

catch :- In this we put the code to execute only if code in try block shows an error; catch block is used to handle the exception.

Throw :- Throw shows execution error if onakes an object of it and throw it to notify the inform the users.

Throws :- This block tells us the block of code that might throw an exception.

Whenever the code

P.T.O
(9)

Programming in Python

Q-(1)

Python Function :- Functions in Python are block of codes. They are only executed when called. Function allows us to reuse the code. There is no need to re-write the same code again and again. It increases the reusability of code. These are two type of functions.

There are

i) Built-in function :- There are many built-in functions are the functions which are already defined in Python libraries. We directly call them and use them. It somes a lot of time.

Eg :- dir(), len(), print() etc

ii) User defined function :- These are the function which are written by the users function according to their requirements. itself "def" keyword is use to write such functions.

(10)

Declaration :- Functions in Python are declared by def keyword.

Ex: def function-name

block of code

Q-③:

Python Module :- Python includes contains many bundles of code which can be used. In different programs repeatedly. It also contains many functions to make our life easy.

The "import" keyword is used to import any module. Once our program. Once the module is imported, we can use the function and bundle of codes inside them.

Q:④:

Syntax :- import module-name

Ex: import math

Ex: import a particular function from a module & by using from keyword. We can import a particular function from a module

Ex: import sqrt() from math.

Q.(4)

GUI :- In Python GUI stands for graphical user interface, It is an application which has buttons, tool, icons and many more which we can use. It is used to perform many activities.

Eg. Text Editor etc are are used to read, build, delete, come and manipulate the files.

Advantages of GUI :-

(i) Colourful icons and designs makes the recognisation of systems and button more easy.

(ii) It makes the use of applications more easy.

(iii) It make the application more attractive.

(iv) Makes the interface simple and easy.

(12)

Q.5

Difference b/w the inheritance and multiple inheritance.

Inheritance	Multiple Inheritance
(i) It is the main inheritance.	(i) It is type of the inheritance.
(ii) In this object of one class acquires the properties of an other class.	(ii) In this object of one class acquires the properties of multiple class.
(iii) In this a class can't be derived from another derived class i.e. child class.	(iii) In this a class can be derived from another derived/child class.
(iv) Child class can't be a base class.	(iv) Child class can be a base class.
