There are many tasks in college that make students anxious.

1)One has to stand in long queue for exam fee and registration fee etc. while online is away

2).The whole system of the library is bad and the servants of the library have no manners to speak, they consider the students as slaves and do nothing about their work, they only take the salary of the harem.

3)All the servants of the college are very ill-tempered and treat the students as slaves in every work

It needs for improvement

Giving more importance to NCC and NSS
