One day International Webinar on Gender Sensitization: Prospects and Challenges
9th July 2021 11:00 am – 1:30 pm (IST)

Initiated by Internal Quality Assurance Cell (IQAC), Bidhan Chandra College, Asansol

Throughout history and in many societies including India, gender inequality was part and parcel of an accepted male-dominated culture. Atrocities and discrimination are the two major problems, which the women section of the society face in the present day. At various moments in our lives, we do actively question routine practices of Gender. But we seldom question the fundamental premises on which these practices are based. We do not ask ourselves whether men and women are not more similar than we imagine them to be. Whether masculine and feminine attributes and roles cannot be exchanged or transformed, or what if men and women can be equal to and coeval with each other. This virtual webinar will bring together the renowned personalities from different part of the world to discuss on gender equality, gender sensitivity and also to transform the attitudes and behaviour positively towards gender roles, responsibilities and relations. As it is important to for a person to be gender sensitive as it helps in the development of our own personality and mindset by examining our own thought and beliefs and it also trigger us to question and stir the reality, we think we know. This webinar aims to provide interaction opportunities specially for the student community for understanding their refreshing ideas to bring a positive and reforming change in the society with their individual efforts more efficiently and to encourage them to enhance their leadership skills.
