

One Day National Webinar

Open Cast Mining and Waste Management - Issues and Challenges

11 JUNE 2021

For extraction of minerals and fossil fuels Mining activities are performed. Mining activities are of two types: Subsurface Mining and Open Cast Mining (also known as Surface Mining). Both the methods are destructive and several occupational health hazards, negative socio-economic threats, ecological and environmental impacts are involved in it. Bidhan Chandra College, Asansol organized a One-Day National Webinar on "Open Cast Mining and Waste Management – Issues and Challenges" on June 11 2021. Socio–Economic and environmental problems along with different issues and challenges related to Open-cast Mining were among the prime issues of our discussion. Our exceptionally capable Men of letters provided us with their vast materials of knowledge and science.
