

## FEEDBACK ANALYSIS 2021-22

### Alumni feedback:

1. We have got every facilities what we need, from the college. Just one thing I would like to request the college authority that it will be very helpful if students get facilities of preparation for all India Master's degree entrance tests like CUCET, JAM, JEST etc. Otherwise our campus life in the college was fantastic.
2. I had not seen any core theoretical faculties or phenomenologist worked in high energy physics (like particle physicist or string phenomenologist etc) or condensed matter physics. All had either Nanotechnology, material science, or electronics background. In addition, a student should get the opportunity to learn all those laboratory instruments and experiments mentioned in syllabus.

### Parent Feedback:

1. Smart class
2. Bus service is required to reach the college
3. Increase the number of guards and gave too many security of our child's
4. I think curriculum should be more skill based rather than information based. And institute should promote extra-curricular activities as well and should engage students in real facts check and case studies to improve their management and presence of mind skills to deal with forthcoming problems and limitations in professional life along with personal life.
5. Encourage co-operative learning. Create a welcoming environment. Use ICT tools and digital game- based learning. Provide collaboration and socialization opportunities.
6. Focus on creating spaces where students can come together. Introduce innovative infrastructure and technology. Many competitions can be conducted and more information seminars lectures by an expert required.

### Student Feedback:

1. Currently, career, academic, and financial advising are conducted separately, but they all need to be discussed together. In particular, students need much more comprehensive upfront career advising. They need a realistic picture of the career options available to them, what those careers pay, and the work (and tuition) required to access those careers. Students who are undecided need more opportunities to explore majors and careers. For example, colleges could hold career fairs as part of orientation, invite alumni to speak, or add career assessments into registration.
2. By providing a number of good study material
3. Need canteen in our college.
4. Usage of modern methods for teaching needs to be encouraged by the institute.
5. Need career oriented courses. Need computer for every student.
6. Information & communication technology (ICT) teaching should be enhanced. We are interested in ICT learning and group learning.
7. Development departmental library.

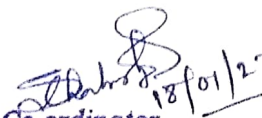

8. Organized more seminar.
9. More smart classes with videos
10. A digital library can help student to access more knowledge as the library lends only two book at a time.

#### **Teacher's Feedback:**

1. To develop the no of Urdu books and Urdu magazines in the library.
2. Improve canteen.
3. Skill based course/ Project based Course to be included in all curriculum.
4. Departmental Library to be developed properly.
5. Hope to see more of master degree courses to be opened in our college soon.
6. A digital library can help students to access more knowledge as the library lends only two books at a time.
7. More teaching staff required
8. Number of smart classroom should be increased,
9. canteen facilities should be improved both in terms of quantity and quality
10. Departmental library facilities should be improved.

#### **Action Taken Reports:**

1. **Smart Class: Finalized a protocol for the optimal use of the existing smart class.**
2. **Bus Service: Forwarded to Governing Body for further reminder to concern authority.**
3. **Security Service: Forwarded to Governing Body and the matter is discussed in GB dated 19.11.22.**
